Southall, Middlesex, UK

Work Experience

Renful Premier Technologies • London, UK • Software Developer

Oct. 2025 - Present

- Leading the modernization of the Pre-M enterprise legacy platform by migrating a monolithic architecture to a modular Spring Boot backend
- Designing and implementing RESTful APIs for assessment workflows and frontend integrations
- Developing internal systems including backend logic, database design, and reporting features
- Managing Linux-based production environments, configuring Nginx/Apache for application hosting

SOCAR Trading • London, UK • IT Development Department (Intern)

Aug. 2025 - Oct. 2025

- Supported enterprise IT infrastructure and ensured availability of business-critical systems
- Automated monitoring and maintenance tasks using Python and Bash
- Collaborated with senior engineers on infrastructure troubleshooting

Projects

URL Shortener

- Spring Boot 3, Redis, PostgreSQL, Docker
- REST API for URL shortening with Redis caching, idempotent code generation, and click tracking

Kafka Order Pipeline

- Spring Boot 3, Apache Kafka (KRaft), PostgreSQL, Docker
- Event-driven order processing system with async Kafka producer/consumer and at-least-once delivery

Grocery API

- NestJS, TypeScript, PostgreSQL, Docker
- RESTful grocery store API with full CRUD, authentication, and containerized deployment

Education

University of Reading • Reading, UK • BA Politics & IR

Sep. 2023 - Jul. 2025

MGIMO • Moscow, Russia • BA Politics & IR + BS International Business and Finances

Sep. 2021 - Jun. 2023

Skills

Languages: Java, Python, JavaScript, TypeScript

Frameworks: Spring Boot, React, Vue.js, Node.js

Databases: PostgreSQL, MongoDB

Tools & DevOps: Docker, Git, Linux, Nginx, CI/CD, Kafka
